Alexander F. Dalhog Jr.

Development & Experience Manager | AI Automation Builder | People Operations Leader

alex.dalhog@gmail.com (+63) 998 490 9379 Davao City, Philippines LinkedIn

PROFESSIONAL SUMMARY

Development & Experience Manager with 8+ years in people operations, talent acquisition, organizational development, and remote team management. Currently leading the employee journey for 70+ virtual assistants at Workspaceco Outsourcing, serving Australian trades and professional services clients. Self-taught AI automation builder who designed and deployed production-grade systems using Claude AI, N8N Cloud, and Python — including a 6-agent training pipeline, real-time compliance monitoring, 54 training modules, and a data-driven SEO content strategy. Combines deep HR and operations expertise with hands-on workflow automation and AI engineering to drive process improvement at scale.

PROFESSIONAL EXPERIENCE

Development & Experience Manager

Oct 2025 — Present

Workspaceco Outsourcing · Australia (Remote)

- Oversee the **end-to-end employee lifecycle for 70+ virtual assistants** across trades, farm, and professional services sectors in Australia, driving employee engagement, retention, and continuous improvement
- Spearheaded the design and deployment of a **6-agent AI training pipeline** (SCOUT, FORGE, CLEAR, QUILL, PIXEL, LENS) using Claude API and FastAPI, reducing training deck production from **15+ hours to under 30 minutes**
- Implemented a **real-time EOD compliance monitoring system** on N8N Cloud that automatically tracks, classifies, and escalates daily submissions from 70+ VAs with zero manual intervention
- Developed **54 training modules** across three tracks — CRM platform onboarding (ServiceM8, Tradify, Jobber, Fergus, Procore, etc.), professional development (time management, SOPs, bookkeeping, digital marketing), and VA live masterclasses — using AI-powered content generation and Google Classroom deployment
- Executed a **data-driven SEO content strategy** producing 15 optimized articles and 12 LinkedIn posts targeting the Australian trades VA market, establishing organic authority in underserved niches
- Streamlined **career and wellness check-in processes** by building an automated system that processes 30+ 1:1 meeting transcripts via Fathom integration, generating structured DOCX/PDF

reports per VA

- Engineered a **WhatsApp recommendation analyzer** using Playwright and Claude to extract business intelligence and structured data from group chat conversations
- Designed and deployed a **scheduled AI executive inbox briefing** using Claude Code remote triggers that autonomously triages Gmail, drafts replies, pulls calendar events, and delivers branded daily briefing emails via Notion integration
- Led **L&D strategy and organizational development** with a two-track training rotation (Mindset & Leadership + AI Skillset) delivered bi-monthly, aligning team capabilities with strategic business goals

Recruitment Manager

Apr 2024 — Oct 2025

Workspaceco Outsourcing · Australia (Remote)

- Managed **end-to-end talent acquisition**, scaling the VA team to meet growing demand across Australian trades, farm, and professional services sectors
- Built and maintained **talent pipelines** ensuring consistent access to qualified candidates for current and projected client needs
- Developed **screening frameworks and structured hiring processes**, improving placement quality and reducing time-to-hire through data-driven recruitment metrics
- Partnered with leadership on **strategic workforce planning**, forecasting staffing needs and aligning headcount with business growth objectives

Director of Talent & Operations

Aug 2023 — May 2024

TopLobster · Digital Marketing Agency

- Directed **cross-functional operations** spanning talent acquisition, project management, finance, and stakeholder management for a digital marketing agency
- Coordinated cross-functional delivery teams using ClickUp and Google Workspace, implementing **quality assurance processes** for client deliverables
- Oversaw full **recruitment lifecycle**, payroll administration (Gusto), invoicing/MRR tracking (QuickBooks), and employee relations
- Delivered quarterly **professional development programs** and implemented performance management systems with structured KPIs and feedback loops

People & Culture Coordinator

Aug 2021 — Oct 2023

SellerCandy · Amazon Seller Support

- Managed the **full employee lifecycle** from talent acquisition through onboarding to offboarding for a distributed remote team
- Drove **employee engagement initiatives**, coordinated team meetings, and championed continuous learning and professional development programs
- Maintained internal **knowledge management systems**, managed payroll data, and served as primary HR point of contact for all team members

Sr. Human Resources Officer

Jul 2018 — Aug 2021

Awesome OS Philippines · BPO

- Managed **employee relations**, contract administration, and **regulatory compliance** with Philippine labor law for a growing BPO operation
- Conducted administrative investigations, facilitated hearings, handled grievance resolution, and managed **HRIS** onboarding/offboarding processes
- Championed **change management** initiatives, educating employees on labor rights, welfare benefits, and workplace safety policies

KEY PROJECTS & AI AUTOMATIONS

AI Agent Training Pipeline — 6-Agent Autonomous System

Multi-agent pipeline (SCOUT → FORGE → CLEAR → QUILL → PIXEL → LENS) that transforms a training topic into a complete, quality-audited Canva presentation deck in ~30 minutes. Three human-in-the-loop checkpoints, three training modes, and automated quality scoring (38/50 minimum).

Python, FastAPI, Claude Opus/Sonnet 4.6, OpenRouter API, Canva API, Windows Task Scheduler

EOD Compliance Monitoring System — 3-Phase N8N Cloud Automation

Built a 3-phase automated compliance system for 70+ VAs. Phase 1 (9:30 AM) sends morning reminders. Phase 2 (7 PM) scans Gmail with 3 parallel searches, deduplicates results, and uses Claude AI to classify submissions as On-Time, Late, or Missing, writing to Google Sheets. Phase 3 (next morning) catches overnight submissions, reclassifies, updates the compliance dashboard, drafts escalation notices, and sends a daily summary email. Runs fully unattended with zero manual steps.

N8N Cloud, Gmail API, Google Sheets API, Claude Sonnet 4.6, OpenRouter

Training & Development Library — 54 Modules

AI-generated branded training decks (PPTX), quizzes, and YouTube resource compilations across 3 tracks: CRM platform onboarding, professional development, and VA live masterclasses. Deployed via Google Classroom with batch automation scripts.

Claude Code Skills, Google Classroom, Google Apps Script, PPTX Generation, Canva

SEO Content Strategy — Australian Trades VA Market

15 long-form SEO articles + 12 LinkedIn companion posts targeting plumber, electrician, builder, HVAC, and landscaper niches. AI-assisted content production establishing organic market authority.

Claude, SEO Strategy, Keyword Research, Content Marketing, LinkedIn

WhatsApp Recommendation Analyzer

Playwright-based scraper that reads WhatsApp group chats, batches messages for Claude analysis, and extracts structured recommendation networks with endorsement tracking to Google Sheets.

Python, Playwright, Claude Opus 4.5, Flask, Google Sheets API

WSC Executive Inbox Briefing — Scheduled AI Email Triage

Fully autonomous daily briefing system triggered every weekday at 7:00 AM via Claude Code remote trigger. Scans Gmail, classifies emails (Reply Needed / FYI / Irrelevant), drafts context-aware replies, pulls Google Calendar events, creates a Notion briefing page, and delivers a branded HTML executive summary email before the workday starts.

Claude Code, Remote Triggers, Gmail MCP, Google Calendar MCP, Notion MCP, Scheduled Automation
